Education

VIT Bhopal University

M.Tech

Artificial intelligence and data science

GPA: 7.00/10

Bhopal, Madhya Pradesh

Expected May 2026

Haldia Institute of Technology

B. Tech

Artificial Intelligence and Machine Learning

GPA: 8.58/10

Haldia, West Bengal

May 2020

Paramanandapur Jagannath Institution

12th Standard

West Bengal Council of Higher Secondary Education

Percentage: 77.00%

Purba Medinipur, West Bengal

May 2018

Experience

Salesforce Developer Virtual Internship

November 2023 - January 2024

- Learned Salesforce Fundamentals Organizational Setup Relationship and Process Automation, Types of Flows and Security.
- Also learned Apex, Testing and Debugging VS Code Setup and CLI Setup, Lightning Web Components and API.

MathWorks Virtual Internship

May 2023 - Sep 2023

- Learned the fundamentals of AI concepts such as deep learning, machine learning, and data analysis.
- Learned how to use MATLAB, to design and execute AI algorithms.

Projects

Indian Tourist Place Recommendation

Dec 2025

- Built an NLP recommendation engine using TF-IDF + SBERT on Kaggle's Indian Places to Visit Reviews dataset.
- Implemented automatic intent tagging (beach, hill, temple, food, fort) using semantic similarity and phrase mapping.
- Implemented hybrid search, similarity scoring, and ranking using Python, Pandas, and Scikit-learn.

Classification of Plant Leaf Diseases Using Advanced Deep Learning

April 2025

- Developed a deep learning model using ResNet50 and ensemble techniques to classify plant leaf diseases.
- Trained and evaluated on a dataset of 25,000+ images across 11 classes, covering multiple plant types.
- Implemented ensemble learning (ShuffleNet v2 + ResNet50), achieving high classification accuracy.

Object Detection Using YOLO

March 2025

- Built an object detection pipeline with YOLOv8 for training, validation, and real-time inference.
- Implemented data preprocessing and conversion utilities for custom datasets.
- Achieved accurate detection using Python, PyTorch, and GPU acceleration.

Skills

Programming Languages: C, Python

Databases: MySQL

MLOps Framework: MLflow, Docker, Kubernetes, Kubeflow

Libraries: Pandas, NumPy, TensorFlow, Scikit-learn, PyTorch, SBERT

Machine Learning: Random Forest, Naive Bayes, Regression, SVM, K-Means Clustering

Deep Learning: CNN, RNN, LSTM, Neural Network, GAN

Tools: Git, GitHub, Jupyter Notebook, Google Colab, VS Code

Languages: Bengali, Hindi, English

Certifications & Training:

- Python For Beginners Course In-Depth(Udemy)
